Product Overview

- Designed and manufactured to the highest standards in a quality controlled environment the Syncro VIEW Marine fire alarm annunciator provides a simple and convenient method of extending the controls and indications of the Syncro ASM fire alarm control panel to other locations.
- The large, graphic liquid crystal display and high brightness LED indicators duplicate the indications on the Syncro ASM fire alarm control panel at up to 15 additional locations via a simple, two-wire serial data connection.
- The Syncro VIEW Marine is available in either a 24V DC powered option (which can be powered via an additional 2 cores from the Syncro ASM control panel, a maximum of 4 VIEW Marine Repeater Panels in this combination) or up to 15 VIEW Marine Repeater Panels if powered local from an ancillary 24V DC supply or a 230V powered option with local battery back up.
- Syncro VIEW Marine is housed in a small enclosure which is styled similarly to the Syncro ASM control panel and is ideal for installations where a large fire control panel would be detrimental to décor or where space is at a premium such as the Control Bridge or Helm.
- Up to 15 Syncro VIEW Marine annunciators can be connected to each control panel on the Syncro ASM network making VIEW Marine ideal where multiple points of indication and/or control are required in such as places as Engine Rooms, Staff Quarters, Living Spaces or Control Area's.
