

AXIS C1510 Network Pendant Speaker

For installation in high ceilings—large

This all-in-one speaker system makes audio announcements smart and easy. For instance, it can be used to make general live or prerecorded voice messages, remotely and proactively warn off intruders, and deliver instructions. It offers easy integration with your video management software (VMS), VoIP telephony, analytics, and more. Including a preconfigured digital signal processer (DSP) it produces clear voice every time. It also features a built-in microphone enabling remote health testing. This visually attractive pendant speaker is ideal for mounting in high ceilings. Furthermore, the embedded audio management software supports user, content, zone, and scheduling management.

- > All-in-one speaker system
- > Connects to standard network
- > Easy installation with just one network cable (PoE)
- > Scalable and easy to integrate
- > Remote health testing
