

Document - 800-11432V3 - Rev A - 02/2014

<b>MAXPRO® NVR Family - Device Support List</b>	
Version - 3.1 or above. Applies for MAXPRO NVR Software only and Boxed Solutions - MAXPRO NVR XE, SE, PE and MAXPRO NVR Hybrid XE, SE, PE.	
Please check Honeywell Download Center for NVR updates required to be installed on your system.	
Please contact Honeywell Technical Support for any questions or issues concerning adding and using the supported models in the document.	
Certification	
Verified (V)	Tested in Honeywell lab
Supported by Platform (S)	Verified equivalent model by same manufacturer through one of the supported Integration methods - Direct integration with Device API or Standards - PSIA, ONVIF (including support for Profile S devices), RTSP
<b>Legend - Support</b>	
✓	Supported in NVR
—	Not Supported in NVR
<b>Note 1</b>	
Camera based VMD - Supported only if VMD is available on a specific camera model. Motion Detection settings (regions of interest) needs to be done in Camera web page, not supported in NVR. Server based VMD (Smart VMD) - Motion Detection settings (region of interest) needs to be done in NVR on the supported cameras.	
<b>Note 2</b>	
Digital I/O - Only Input 1 and Output 1 on the device is supported in the NVR if I/O is available on a specific device model	
<b>Note 3</b>	
RTSP (Real Time Streaming Protocol) - Refer datasheets (network protocols supported). All PSIA, ONVIF cameras & encoders by default support RTSP. For RTSP URLs for each model, please contact the respective camera manufacturer. RTSP device simple test - VLC media player ( <a href="http://www.videolan.org/vlc/">http://www.videolan.org/vlc/</a> ) can be used, provide the RTSP URL of a device and check video stream).
